Black Lives Matter

Dear Parents/Carers

In recent weeks, I know that all of you will have seen and been moved by the events taking place following the death of George Floyd by a police officer in the USA.

As a school, we fully recognise the pain and anguish that people feel and we share the strength of emotion. We stand in solidarity with our community as we learn and address the complex issues this raises around race and ethnicity for this country.

We fully support our community and strive to address these issues by developing our work through the education and provision we provide through our curriculum.

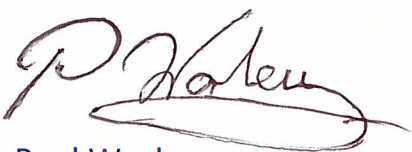

We are extremely proud that children and adults of different backgrounds get on so well together here and this is something we should all celebrate. Together we will challenge injustices by playing our part in order to make long-lasting societal change.

Please be assured that our school would welcome any positive contributions and actions that would help us to ensure that all of our community has absolute equality of opportunity.

Thank you for your ongoing support with this.

Look after yourselves and one another. Stay safe.

Yours sincerely

Mr Paul Worley  
HEADTEACHER
